

Evidence Presentation: Training Videos: Undo Redo

Published on District of Utah (<https://www.utb.uscourts.gov>)

Just like on a computer, the **Undo**, **Redo**, and **Clear** buttons are used to fix something that was accidentally deleted or cleared from the screen. For instance, if someone presses the Clear button, the annotations can be returned to the monitor by pressing the Undo button twice.

It is important to know that all the evidence monitors are linked into a single system. *Pressing the Clear or Undo buttons **will affect all parties***, not just the monitor directly in front of a party.
